

A Full Featured Distribution Suite

Handling all your manufacturing and warehousing software tasks just got easier and more efficient with Manufacturesuite, the full-featured web-based distribution solution from Matrixwebs.com. Manufacturesuite is at the forefront of utilizing the power of the web for your business software tasks, easing your hardware needs and saving you time and money. Install Manufacturesuite in-house, co-locate on Matrixwebs servers, or on any server anywhere. We'll lighten your customer's workload (and save them some headaches) with our ability to communicate with their servers. Direct database access, ftp, edi, or just about any method can be used to work with your customers.

Simplifies Features of More Complex and Costly Installations

As a web-based platform, DistribuSuite can be hosted either at a hosting facility or installed in-house with only a small footprint. You'll have DistribuSuite set up and running in minutes with no hardware to purchase.

QuickBooks Integration

Use our simple interface to integrate DistribuSuite with your Quickbooks application for General Ledger. We make it easy for you!

Integrated Document Storage

Any conformed copies or documents related to the work order can be uploaded or scanned directly to a processing folder, where they are tied to the work order and can be reprinted at any point.

The screenshot shows the DistribuSuite web application interface. At the top, there is a navigation bar with the logo and user information (Demo User, E-Z Weld, MY PROFILE, LOGOUT). Below this is a main menu with tabs for Administration, Customers, Inventory, Orders, Billing, Accounting, Purchasing, Warehouses, Reports, and Documents. The 'Orders' tab is selected, and a dropdown menu is open, listing options like Order Entry, Order Maintenance, Incomplete Orders, Order Inquiry, Reprint Picking Slip, Reprint Packing Slip, Recurring Order Entry, and Recurring Orders Release. The main content area displays a 'Welcome to DistribuSuite' message, a 'Reports for E-Z Weld' section with a table of order statistics, and a 'Reminders' section with a table for customer reminders. On the right side, there are utility boxes for 'Run Command' and 'Favorites'.

ORDERS
